Imada Pointer Push-Pull Force Gauge

Imada Pointer Push-Pull Force Gauge is a small and simple thrust and tensile force testing instrument. It is suitable for push and pull load test in electronic appliances, light industry and textile, hardware, lighter and ignition device, fire fighting equipment, manufacturing, fishing gear, power machinery, scientific research institutions and other industries. It is a new generation of products that replace tubular push-pull force meters.

Features:

- 1.Simple to operate, robust and virtually maintenance-free
- 2.Ergonomic design, heavy duty metal case, no batteries required.
- 3.Can be used in hazardous environments.
- 4.Dial can be turned
- 5.Real-time display and peak display modes
- 6.All are genuine Japanese products

Technical Parameter

Model	FB-10	FB-20	FB-30	FB-50	FB-100	FB-200	FB-300	FB-500
Capacity	10N	20N	30N	50N	100N	200N	300N	500N
Resolution	0.1N	0.2N	0.25N	0.5N	0.1N	2.0N	2.5N	5N
Accuracy	$\pm 0.3\%FS$							
Stroke	10mm

Net weight	600g
Measuring rod	M6
Work temperature	20 ± 10C
Carry temperature	-27°C~+70C
Relative humidity	15%~80%RH
Work environment	No vibrancy and no cautery around
Accessories	<p>Pointer Push-Pull Force Gauge 1 PCS</p> <p>Hard Plastic Packaging Case 1 PCS</p> <p>Measuring probe 5 PCS</p> <p>3 inch extension rod. 1 PCS</p>
