Tumbling dryer HTF-743-Direct Manufacturer

【 Scope of application 】

Used for tumble drying of fabrics, garments or other textiles after shrinkage test.

【 Meet the standard 】

GB/T 8629、 ISO 6330

【 Instrument characteristics 】

1. It is made of steel by spraying process as the shell, using stainless steel as the drum, and the appearance design is novel and beautiful.
2. The microcomputer controls the reasonable drying temperature and has the function of automatically turning to cold air before the end of drying.
3. Digital circuit, hardware control, strong anti-interference ability.

4. The instrument has low working noise, stable and safe operation, and has the characteristics of self-stopping safety device for opening the door, convenient and reliable to use.

5. The drying time can be freely selected, and the drying fabric material and quantity range are wide.

【 Technical parameters 】

Model	HTF-743
Category	Front door feeding, horizontal drum type
Drum Diameter	(58±1) cm
Drying Time	1 to 999min can be set
Drum Rotation Speed	50r/min
Number of lifting Pieces	Two pieces
Drying Capacity	6kg
Controlled air outlet Temperature	<70°C
external Dimensions	600×560×830mm
Net Weight	30kg
Power Supply	AC220V 50Hz 2KW
