

G thickness gauge TW-G18/G24-Wholesaler

PEACOCK

Model :G
Pressure :2.4N
Throat depth :20MM
Accuracy :0.01MM
Measuring range :0-10MM

Model :G
Pressure :1.8N
Throat depth :20MM
Accuracy :0.01MM
Measuring range :0-10MM

G thickness gauge TW-G18. The thickness gauge is mainly used to measure the thickness of paper, leather, rubber, fabric and various metal plates, glass plates, etc.

Application:

The thickness gauge is mainly used to measure the thickness of paper, leather, rubber, fabric and various metal plates, glass plates, etc.

Technical Specifications

Model	TW-G18	TW-G24
Test Pressure	1.8 N	2.4 N
Brand	Japanese peacock	
Measuring Range	0-10mm	
Throat depth	20MM	
Accuracy	0.01MM	
Material	Stainless steel
